

SHUBHAM THAKOR

MERN Stack Developer | Full-Stack Engineer | AI Application Builder
+91 6354313082 | shubhamthakor2005@gmail.com | Khambhat, Gujarat, India
github.com/shubhamthakor | linkedin.com/in/Shubham-Thakor

PROFESSIONAL SUMMARY

Motivated 3rd-year Computer Engineering student specializing in MERN Stack development with hands-on experience in AI-integrated, IoT-enabled, and cloud-deployed full-stack web applications. Proficient in React.js, Node.js, MongoDB Atlas, and Python Flask. Delivered production-ready projects including a live client website, an AI disease detection platform, and a smart home automation system. Passionate about scalable APIs, 3D web experiences, and user-centric design.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Engineering

Madhuben & Bhanubhai Patel Institute of Technology, CVM University, Anand, Gujarat | 2023 – 2027 |
CGPA: 8.80/10

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Java, C, C++

Frontend: React.js, HTML5, CSS3, Three.js, GSAP, Responsive Design

Backend: Node.js, Express.js, REST API Design, Python Flask

Databases and Cloud: MongoDB Atlas, Mongoose ODM, MySQL, Vercel, Netlify, Render

AI and ML: Groq LLaMA 3.3 API, Random Forest ML, Speech Recognition API

IoT and Hardware: ESP8266 WiFi Module, Serial Communication

Tools: Git, GitHub, VS Code, Postman

PROJECTS

Shivalaya Gems Crystal — Gemstone Business Website | shivratnaweb.vercel.app | 2025

React.js | Three.js | GSAP | Node.js | MongoDB Atlas | Vercel

- Built and deployed a fully responsive production-grade gemstone business website for a real client using React.js with immersive Three.js 3D product models and GSAP scroll-triggered animations for a premium UI/UX.
- Developed Node.js and Express.js backend with MongoDB Atlas cloud database to manage product catalog and customer inquiries; deployed frontend on Vercel with CI/CD pipeline for zero-downtime production delivery.

HealthAI — AI Disease Detection and Doctor Booking Platform | 2026

React.js | Node.js | MongoDB Atlas | Python Flask | Groq LLaMA 3.3 | Random Forest ML | JWT

- Built full-stack AI app detecting diseases from symptoms using Random Forest ML and Groq LLaMA 3.3; developed 3 role-based portals (Patient, Doctor, Admin) with JWT authentication.
- Implemented city-based doctor discovery across Gujarat with voice input and real-time appointment booking.

AI Voice Assistant and Smart Home Automation System | 2025

React.js | Node.js | Express.js | Groq AI API | ESP8266 | Speech Recognition API

- Built full-stack AI voice assistant with Groq AI API; integrated ESP8266 to control home devices via REST APIs over local network.
- Implemented real-time Speech Recognition API with React dashboard showing live device status and toggle controls.
